

EC Certificate

EC Certificate of Factory Production Control

Certificate No. 0086 - CPD – 508468

In compliance with the Directive 89/106/EEC of the Council of European Communities of 21 December 1988 on the approximation of laws, regulations and administrative provisions of the Member States relating to construction products (Construction Products Directive – CPD), as amended by the Directive 93/68/EEC of the Council of European Communities of 22 July 1993, it has been stated that the construction products

Geosynthetic barriers Bentomat and Voltex product groups

characterised for use in

The construction of liquid waste disposal sites, transfer stations or secondary containment, solid waste storage and disposal sites, reservoirs and dams, canals and as a fluid barrier in the construction of tunnels and underground structures

produced by

CETCO Europe Ltd,

Birch House, Scotts Quays, Birkenhead, Merseyside, CH41 1FB, United Kingdom

manufactured in the factory located at

Birch House, Scotts Quays, Birkenhead, Merseyside, CH41 1FB, United Kingdom

are submitted by the manufacturer to initial type testing of the products and a factory production control, and that the approved body BSI has performed the initial inspection of the factory and of the factory production control and performs the continuous surveillance, assessment and approval of factory production control. This certificate attests that all provisions concerning the attestation of factory production control described in Annex ZA of the harmonised European Standards EN 13491/13492/13493/13361 and 13362 and in accordance with the procedures given, were applied.

A handwritten signature in black ink, appearing to read 'Alastair Trivett', written over a horizontal line.

Alastair Trivett, Managing Director – Global, BSI Product Services
Date 05 September 2006

This certificate first issued 05 September 2006

This certificate remains valid as long as the conditions laid down in the harmonised technical specification in reference or the manufacturing conditions in the factory or the factory production control itself are not modified significantly.
